

NEW for 2021

The NEW 260-6XLPM Clear Low Power VOM

Based upon the famous Simpson 260, the NEW 260-6XLPM Clear Multimeter features a transparent case, exposing the craftsmanship and detail of its inner components. Makes an excellent teaching aid for schools and technical training centers.

Features & Benefits

- Traditional Simpson 260-6XLPM Multimeter in clear case showing beautiful detail
- Clear Polycarbonate case constructed of more impact resistant ABS
- Provides visual inspection of components
- Comes with removable knobs and overlay
- Clear case makes it an excellent teaching aid
- Accurate in-circuit tests without risk to components or causing digital circuits to switch states
- Instant trend information for quick positive "Yes/No" checks
- 2 extra "low power" Ohms ranges (Rx1 and Rx10)
- Mirrored scale for parallax reduction
- Resettable overload circuit protection relay
- Includes 9V and 1.5V batteries and probe test leads with alligator clips
- Hand crafted with pride
- **MADE IN THE USA**
