

NEW Simpson Electric 5005BT Series Digital Portable Multimeter

Simpson Electric's NEW 5005BT Series Digital Portable Multimeter with Bluetooth is designed for professionals and offer safe, reliable use. The rugged device features a high-resolution display, large range count, and is equipped with more than 30 different measurement functions.

Features & Benefits

- View real time data and multimeter screen on your cell phone
- Log data into cell phone for easy on-field measurements
- Set functionality on multimeter mobile device – two-way communication
- Data logger & view function (up to 32,000 readings)
- Bluetooth communication with PC for report generation
- 100kHz bandwidth for high frequency signal measurement
- 1kHz low pass filter mode for accurate measurement at VFD
- Go-No-Go function to check pass/fail of devices
- VAC with 1M Ω impedance mode to eliminate ghost voltages
- 4-20A/0-20mA scale type measurement
- Single fuse for mA & A
- Adjustable square wave output
- Temperature measurement with J, K, Pt100 & Pt1000 sensors
- External power adapter to operate meter on Mains to preserve battery life
- Selectable clamp ratio for high current measurement
- Conductance and frequency/time period measurement
- MADE IN THE **USA**

2 Year Warranty
